SUSTAINABLE UC PRESENTS:

**Reducing Environmental Impact: Composting
at University Commons & in Ann Arbor**

With Mallory Lawson Compost Program Coordinator at the City of Ann Arbor

The City of Ann Arbor is bringing food scrap collection service to University Commons! Multi-family properties have previously been excluded from composting, but the city is working hard to increase access to this service. University Commons has kindly agreed to be the first participants in this pilot program. Come learn about the ins and outs so we can start collection in March!
